

CHI Health School of Radiologic Technology & Medical Imaging Dual Enrollment Form

Student Name: _____

Current Institution: _____

First Term of Enrollment: _____

Prior to Enrollment:

- Student must be currently enrolled and have completed one year in a JRCERT Accredited Radiologic Technology (RT) to dually enroll in the Medical Imaging (MI) program at Clarkson College. Only coursework completed at a JRCERT accredited program will be accepted for the degree in Medical Imaging
- Students must be in good standing in current RT program.
- All students wishing to complete any General Education or Support Courses for the MI program must complete them prior to enrollment or at Clarkson College.
- Students may begin the admission process after completion of the third quarter at SCC and must submit the following items:
 - ✓ Application and \$35 Application Fee
 - ✓ 2-3page Motivational Essay
 - ✓ High School Transcripts or GED Equivalency
 - ✓ All Undergraduate College/University Transcripts
 - ✓ Medical Imaging Dual Enrollment Form

To Maintain Enrollment:

- Students are required to maintain good standing in their current program, and must complete all RT classes with a grade of a "C" or higher.
- Program director from current RT program must verify that the student is in good standing prior to registration for Medical Imaging coursework each semester.
- If a student discontinues enrollment in their RT program for any reason, it is the responsibility of the student to inform Clarkson College and they are no longer in compliance to complete the MI program.
- Student will have official transcripts sent to Clarkson College from their current institution upon request.

To Earn Your Degree:

- Students must submit a final transcript of their RT program following completion of this degree. Not submitting final transcripts may jeopardize the student's degree completion at Clarkson College.
- Clarkson College will not accept credits from the student's RT program to confer a degree until successful completion of the ARRT Board Examination. Student must submit ARRT certification to Clarkson College.
- Student must complete all requirements of the Medical Imaging program as listed in the academic catalog.

Financial Aid Eligibility:

Financial aid eligibility will be evaluated on an individual student basis. Students should be aware that they may be ineligible for financial aid at Clarkson College, or may have their financial aid reduced, if they received federal student financial aid from another institution during the same award year.
